	requested advice from the COMOR as to whether they would prefer to	
	put up with the delay or to have the C-Triple Prime processed at lower quality with the old printers. The COMOR confirmed its long-standing view that quality was of greatest importance and especially in the case of satellite photography. The COMOR also stated, in response to inquiry, that in its view the acquisition of the new-type printers in order to achieve the great of reproduction have to acquisition of the satellite and the satellite statelline.	
	the speed of reproduction hereto accomplished was highly desirable.
